## Comments:

1. Dear Team 707 I would like to clarify that you should all follow the best practices and conventions in the code and specially in github as I was too too lenient in the grading. Do not expect the same in the final evaluation.
2. You have honestly one of the best backend services I've seen (regardless of the old syntax 😓) I know you're tired and exhausted, but only a little bit

more to go, so try to coronate a great project with the ending it deserves
